

Muhammad Izhar Ahmed

Science Teacher (Grades 3–12) | Biology | Chemistry

📍 Taichung, Taiwan ✉ a.m.izhar0509@gmail.com ☎ +886 905 596 490

📄 Taiwan Permanent Resident (APRC)

International Science Teacher with more than 10 years of teaching experience in Biology, AP Biology, Chemistry, and interdisciplinary science in international and bilingual school environments. Experienced in NGSS-aligned instruction, laboratory teaching, project-based learning, and STEAM education. Skilled in supporting multilingual learners and designing inquiry-based science learning experiences that promote critical thinking and scientific literacy.

Professional Recognition & Credential Evaluation

Recognized Teacher Qualification - Norway

Directorate for Higher Education and Skills (HK-dir)

Approved to work as a teacher in Norwegian primary and secondary schools.

Educational Credential Evaluation - USA

Foreign Credentialing Commission on Physical Therapy (FCCPT)

Eligible to sit for the National Physical Therapy Examination (NPTE), United States.

Educational Credential Assessment - Canada

World Education Services (WES)

Master's degree in Biomedical Engineering confirmed with Canadian equivalency.

Health and Care Professions Council (HCPC), United Kingdom

HCPC Registration Approved as PT

Teaching Experience

Science Teacher

Wagor International School of Excellence (WISE)

08/2024 – Present

Taichung, Taiwan

Subjects Taught:

- AP Biology (Grades 11-12)
- Biology Honors (Grades-9)
- Chemistry (Grades-10)
- Environmental Science (Grades-11)
- General Science Middle School (Grades 6 & 8)
- Design and deliver NGSS-aligned inquiry-based science instruction
- Coordinate laboratory resources and experiments
- Promote critical thinking through hands-on experiments and project-based learning
- Use digital platforms to monitor student progress and provide formative feedback.
- Mentor students in scientific projects and presentations, supporting preparation for higher education pathways.

Science & Physical Education Teacher

Cornell Bilingual School

Subjects Taught:

- General Science (Grades 3–8)
- Physical & Health Education (PHE) (Grades 1–6)
- Delivered **NGSS-aligned science instruction**, fostering inquiry-based learning and critical scientific thinking among students.
- Organized **STEM projects and school science fairs**, guiding students through hands-on experimentation and project presentations.
- Led **interdisciplinary science activities and extracurricular programs**, promoting collaboration, creativity, and real-world application of scientific concepts.

08/2020 – 06/2024

Taoyuan, Taiwan

ESL & Science Teacher (Part-Time)

Angel's English Corner & Jumbo English Cram School

- Delivered science-based ESL lessons
- Improved students' scientific vocabulary and technical comprehension

2020 – 2024

Taiwan

Science Teacher

VIS@betterworld Lab Experimental School

Subjects Taught:

- AP Biology (Grade-11)
- Chemistry (Grade-11)
- Biology Regular (Grade-10)
- Science (Grade-8)
- Integrated project-based learning and research-based laboratory activities to support inquiry-driven science education.
- Mentored students in experimental design, data interpretation, and scientific investigation.
- Implemented U.S.-aligned science curriculum, developing assessments, examinations, and maintaining academic records and student progress documentation.

09/2019 – 07/2020

Taipei, Taiwan

Biology & Chemistry Teacher

Kanz-Ul-Iman Commerce & Science Academy

- Delivered **secondary-level Biology and Chemistry instruction**, emphasizing conceptual understanding and scientific reasoning.
- Prepared students for **Cambridge O-Level and A-Level examinations**, incorporating exam-oriented practice and revision strategies.
- Provided **academic support and mentoring** to help students succeed in national and board examinations.

2010 – 2017

Pakistan

Education

Bachelor of Education (B.Ed.)

Allama Iqbal Open University

2022 – 2024

Pakistan

Master of Science in Biomedical Engineering

National Taiwan University of Science and Technology

2017 – 2019

Taiwan

Doctor of Physiotherapy (DPT)

King Edward Medical University

2010 – 2015

Pakistan

Professional Development

Student Engagement Lesson Analysis (2026) – Wagor International School of Excellence (Cognia)

2-hour certified professional learning focused on student-centered pedagogy, lesson analysis, and engagement optimization strategies.

AP Summer Institute (APSI), College Board, Southern California, USA. 30-Hour Workshop

NTNU Master of Education Scholarship, Taiwan Merit Based Scholarship

CAVES PD Seminar - International Curriculum

Completed full-day professional development workshop (Nov 16, 2025).

IRIS Center Professional Development

Differentiated Instruction: Maximizing the Learning of All Students O Universal Design for Learning (UDL): Designing Engaging and Challenging Learning Experiences

- Addressing Challenging Behaviors – Parts 1 & 2
- Helping Students Become Independent Learners

NTUST Master's Degree Scholarship, Taiwan Merit Based scholarship

NWEA Professional Learning Certificate of Participation

Completed a 2-hour professional learning session focused on advanced educational strategies and assessment practices.

Workshop on Classroom Management & Differentiated Instruction at WISE Campus

Distinction Certificates for outstanding academic performance in multiple Doctor of Physical Therapy (DPT) courses

Research & Publications

Journal Publications

- Khalid, K., Anwar, N., Saghir, M., Gill, R. A., Ahmed, M. I., & Ahmad, A. (2020). Current physical therapy practices and parental satisfaction for rehabilitation services of cerebral palsy children. Rawal Medical Journal.
- Leelarungrayub, J., Kuntain, R., Kaju, J., & Ahmed, M. I. (2019). Potential Health Benefits of Thai Seasonal Fruits for Elderly People. American Journal of Biomedical Science & Research.
- Ahmed, M. I., Adeel, M., Chaudhary, M. A., Ijaz, M. J., & Bashir M. S. (2019). Comparison of Kaltenborn and Mulligan mobilization techniques for treatment of non-specific neck pain. Rawal Medical Journal.
- Ahmed, A., Waqas, M. S., Ijaz, M. J., Adeel, M., Haider, R., & Ahmed, M. I. (2017). Effectiveness of Core Muscle Stabilization Exercises with and without Lumbar Stretching in Non-Specific Low Back Pain. Annals of King Edward Medical University.

Conference Presentations

- Ahmed, M. I., et al. (2019). Effect of trunk brace on forward bending movement characteristics in patients International Society of Posture and Gait Research World Congress, Edinburgh, Scotland.
- Ahmed, M. I., et al. (2019). Effects of trunk brace on thoraco-lumbar and lower limb kinematics in adolescent idiopathic coliosis patients. International Forum on Advanced Technologies, Taipei.
- Ahmed, M. I., et al. (2018). Effect of trunk brace on thoraco-lumbar kinematics and electromyography in scoliosis patients. International Conference on Mechanics in Medicine and Biology.
- Chang, C. C., Jiang, Y. S., Ahmed, M. I., et al. (2018). Movement characteristics as biomechanical risk factors of knee valgus deformity in Sepak Takraw athletes. ESCC Conference, Dublin.
- Chang, C. C., Ahmed, M. I., et al. (2018). Biomechanical analysis of knee motion during landing. International Forum on Advanced Technologies, Japan.

Industrial / Applied Projects

- Functional sports apparel analysis in golf biomechanics
- Compression garment design and movement science application
- Functional sportswear research for mountain climbers
- Rowing machine exercise biomechanics and anatomical chain analysis
